All in one day – Ultravox

Strange how the change came all in a day

Counting down and counting down

And waiting for the minute

We could touch a world

Where every heart had love to offer

Heart-felt passion building around

Feel the love, feel the love

Sharing the strain

From where apathy reigns

For a dying world

All in one day

All in one day

When the hands reached out

Across an ocean

Everywhere

All in one day

All in one day

When the people came

And stood together

Everywhere

All in one day

All in one day

When the hands reached out

Across an ocean

Everywhere

All in one day

All in one day

When the people came

And stood together

Everywhere

Everywhere
