

# The end – Vader

The time has come  
Final act begins  
Does the world still exist  
Or it's just memory from the past  
A tear in the eye  
Gentle shudders and stirs  
Slowly drifts down the mask  
In silence, submission  
Aaaa  
Is this the end now?  
Is this the end now?  
As one story ends  
And the other one starts  
Unprovided, unavoided  
So real and obscure  
The time is so cruel  
Still leading to the end  
But of what, and of whom  
Answer if you can, now  
But in this flesh  
So aged and tired  
The fire burns bright  
Always ready to be released  
So rise your arms again  
Let the blood fill the veins  
Take breath deep in your lungs  
And scream out  
And loud  
In our dreams we may live forever  
Immortal,  
Indestructible  
Like God on the throne  
Like God on the throne  
This is not the end  
Not the end not now  
This is not the end

Not the end now  
Not the end now
