

# Leave right now – Will Young

Im here  
Just like I said  
Though its breaking every rule I've ever made  
My racin' heart  
Is just the same  
Why make it strong to break it once again?

And I'd love to say I do  
Give everything to you  
But I can never now be true  
So I say

I think I'd better leave right now  
Before I fall any deeper  
I think I'd better leave ri-ight no-ooow  
Feelin' weaker and weaker  
Somebody better show me how  
Before I fall any deeper  
I think I'd better leave right now

I'm here  
So please explain  
Why you're openin' up a healin' wound aga-ain  
I'm a little more careful  
Perhaps it shows  
But if I lose the highs, at least I'm spared the lows

Now I tremble in your ar-arms  
What could be the ha-arm  
To feel my spirit calm  
So I say

I think I'd better leave right now  
Before I fall any deeper  
I think I'd better leave ri-ight no-ooow  
I'm feelin' weaker and weaker

Somebody better show me how  
Before I fall any deeper  
I think I'd better leave right now

I wouldn't know ho-ooow to say  
How good it feels seeing you today  
I see you've got your smile back  
Now you say your right on track

But you may never know why  
Once bitten twice is shy  
If I'm proud perhaps I should explain  
I couldn't bear to lose you again

Mmm mmm mmm

I think I'd better leave right now  
Before I fall any deeper  
I think I'd better leave ri-ight no-ooow  
Feelin' weaker and weaker  
Somebody better show me how  
Before I fall any deeper  
I think I'd better leave right no-ow  
Yes I will

I think I'd better leave right now  
I'm feelin' weaker and weaker  
Somebody better show me how  
Before I fall any deeper  
I think I'd better leave right now
