

# Mad World – Within Temptation

Can't control the restless part of me  
Bowing down our heads to love and greed  
I wonder

Can't deny, it's in my head  
Our world in flames, the blood we shed

Walls are falling down on us

We wanna scream our pain  
And break away from the dark  
Caught in this wicked game  
We know that nothing stays the same  
Cause we're living in a mad world (mad world)  
We're living in a mad world  
We're living in a mad world (mad world)  
We're living in a mad world  
Mad world

Trying to hold on to all we know  
But one day turn around and let it go  
Restless  
Can't deny the dreams we had  
Are glowing sparks, the fire ain't dead

Walls are falling down on us

We wanna scream our pain  
And break away from the dark  
Caught in this wicked game  
We know that nothing stays the same  
Cause we're living in a mad world (mad world)  
We're living in a mad world  
We're living in a mad world (mad world)  
We're living in a mad world  
Mad world!

We hate, we love, we're fighting  
This world is tearing us apart  
And piece by piece we're crumbling  
We're crumbling

We wanna scream our pain  
And break away from the dark  
Caught in this wicked game  
We know that nothing stays the same  
Cause we're living in a mad world (mad world)  
We're living in a mad world  
We're living in a mad world (mad world)  
We're living in a mad world  
We're living in a mad world  
We're living in a mad world  
We're living in a mad world  
We're living in a mad world  
We're living in a mad world  
Mad world!
