

Finality – Woods Of Ypres

When we all have gone
To the silence of eternity
To first be forgotten
And lost in the records of the earth
Could I still miss you then,
In the time and space after life
When no one is searching anymore
And where we are nowhere
To be found
We didn't spend our life together
And I will miss you forever
The choice was mine
To long for a time,
That will never come
Though we leave the world apart,
I still went peacefully, quietly,
With you, still, firmly
In my heart
And I will wait forever
I wait
