

# I like You so Much, You'll know it – Ysabelle

I like your eyes, you look away  
When you pretend not to care  
I like the dimples on the corners  
Of the smile that you wear  
I like you more, the world may know  
But don't be scared  
'Coz I'm falling deeper  
Baby, be prepared  
I like your shirt, I like your fingers  
Love the way that you smell  
To be your favorite jacket  
Just so I could always be near  
I loved you for so long  
Sometimes it's hard to bear  
But, after all this time  
I hope you wait and see  
Love you every minute, every second  
Love you everywhere and any moment  
Always and forever  
I know I can't quit you  
'Coz, baby, you're the one  
I don't know how  
I love you 'till the last  
Of snow disappears  
Love you 'till a rainy day  
Becomes clear  
Never knew a love like this  
Now I can't let go  
I'm in love with you, and now you know  
I like the way you try so hard  
When you play ball with your friends  
I like the way you hit the notes  
In every song you're shining  
I love the little things  
Like when you're unaware  
I catch you steal a glance

And smile so perfectly  
Though sometimes when life brings me down  
You're the cure my love  
In a bad rainy day  
You take all the worries away  
Love you every minute, every second  
Love you everywhere and any moment  
Always and forever I know I can't quit you  
'Coz, baby, you're the one  
I don't know how  
In a world devoid of life, you bring color  
In your eyes I see the light, my future  
Always and forever I know, I can't let you go  
I'm in love with you, and now you know  
I'm in love with you, and now you know
