

Never forget you – Zara Larsson ft. MNEK

[Zara Larsson:]

I used to be so happy
But without you here I feel so low
I watched you as you left but
I can never seem to let you go
Cause once upon a time you were my everything
It's clear to see that time hasn't changed a thing
It's very deep
Inside me but I feel there's something you should know

I'll never forget you
You will always be by my side
From the day that I met you
I knew that I would love you till the day I die
And I will never want much more
And in my heart I will always be sure
I will never forget you
And you'll always be by my side till the day I die

Till the day I die

[MNEK:]

Funny how we both end happy but everything seems alright
I wonder what will happen
If we went back and put up a fight
Cause once upon a time you were my everything
It's clear to see that time hasn't changed a thing
So do thoughtful
Whisper you think I'll ever take you off my mind

[Zara Larsson:]

I'll never forget you
And you'll always be by my side
From the day that I met you
I knew that I would love you till the day I die
And I will never want much more

And in my heart I will always be sure
I will never forget you
And you'll always be by my side till the day I die

[Both:]
Doing it, loving it
Everything that we do
And all along, I knew I had something special with you
But sometimes
You just gotta know that these things fall through
But I'm still tired
And I can't hide my connection with you

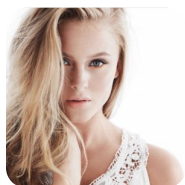

Feeling it, loving it
Everything that we do
And all along, I knew I had something special with you
But sometimes
You just gotta know that these things fall through
I can't hide my connection with you

I'll never forget you
And you'll always be by my side
From the day that I met you
I knew that I would love you till the day I die
And I will never want much more
And in my heart I will always be sure
That I will never forget you
And you'll always be by my side till the day I die

Till the day I die

I'll never forget you

Till the day I die
